## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Group I, claims 1-8 and 13-19 in the reply filed on November 7, 2005, is acknowledged. The traversal is on the ground(s) that the additional search is not burdensome. This is not found persuasive because the invention drawn to a inner and outer rings are much broader than the method of Group, as could be used for any purpose beyond the scope of the method of Group I. Thus, a more comprehensive search, beyond the method, is required.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 9-12 and 20-23 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

### ***Allowable Subject Matter***

3. Claims 1-8 and 13-19 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach or suggest a process for mounting inner/outer rings of a bearing, by pressing a stamp having a shape into the ring to deform the ring in such a way as that (bearing) surface of the ring pressing against the stamp assumes the shape of the stamp; pressing the ring into a machine part through use of the stamp so that a contour of the (mounting) surface of the ring is plastically molded into the machine part through axial flow forming of the machine part and with

the ring serving as a stretching tool; and removing the stamp from the ring, in combination with the other claimed subject matter.

### ***Conclusion***

4. This application is in condition for allowance except for the following formal matters:

Cancellation of the non-elected claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
